Our clients can avail from us a wide range JIB crane that is used in engineering unit for handling light weight in critical area. These are fabricated using light weight material that makes our range of JIB crane durable to carry materials in critical space. In addition, these can easily be handled by a single person.

Features:

* Light weight
* Durable
* Reduces labor cost
* Easy handling
* Less time consuming
* Multi-functional within Work Area

All Specifications are subject to change towards improvements without any prior notice.
